

## Preconfigured DCF™ Racks

Fully Configured Rack Solutions are Easy to Specify, Order and Deploy

Protect your IT equipment with Mainline Distribution Series Preconfigured DCF racks from Emerson Network Power. These bundled solutions are easily specified with a single part number, and are ready for quick deployment. These robust solutions include Liebert® and Knurr® components:

- Fully configured rack.
- On-line UPS with Web Card.
- Basic Rack Power Distribution.

### Benefits of Mainline Distribution Series Preconfigured DCF Rack from Emerson Network Power:

#### Flexibility:

- Fully configured cabinets available to meet most common application requirements.
- Easy to select with a single part number.
- Quickly deployed, integrated solution.

#### Higher Availability:

- Factory-tested equipment is system-matched to ensure compatibility.
- On-line UPS, basic rack power distribution, and system monitoring enhance the availability of the protected equipment.

#### Lowest Total Cost of Ownership:

- Assembled, matched equipment provides the economies of a bundled solution.
- All support equipment includes warranty and a technical support hotline.

Split side panels- allow for easy install and maintenance of equipment

Single front door and split rear doors have 75% perforation and open 135 degrees
